In looking at this graveatiack, upon the constitutional rights of a Senate, this violation of the privileges of the Senate, and this most unpardonable outrage upon the sanctity of the Senate cand this most unpardonable outrage upon the sanctity of the Senate into dissolute insignifeance. Had they met and fought, and both been killed; on Pennsylvania Avenue, together with a dozen friends each, it would have been a melancholy event; but in my estimation, based upon cool and deliberate reflection, such an event, sad as it would have been to record, would not and should not have caused a tithe of the feeling of indignation and horror, which will be felt by every right-minded man in the nation, when he hears of this terrible outrage upon our justitutions, and the freedem of debate and liberty of speech, and gross violation of the sanctity of the Senate; and learns that it was calmly witnessed and approved by certain Dimocratic Senators, and indirectly sustained, approved and institled by every friend of the present Administration in the House of Aleprasontatives, and with two hoorable exceptions, by every number of that body from the Slave-holding States—one and all of whom voted to secure their colleague from the punishment justly due to his conduct—a vote worthy of men State-dioliting States—one and all of whom voted to secure their colleague from the punishment justly due to his conduct—a vote worthy of men who deliberately violated their solemnly plighted faith by the ropeal of the Compromise of 1820, and whose only idea of constitutional rights, constitutional obligations and constitutional requirements, appears to be regulated by the one only consideration, of what is required by the Slave govern free tarritory.

Let me instance the occurrences of the kind alluded to within the last five months which have happened here in the capital of the nation, and in which members of the House of Representa-

Accord, Albert Rusk, a member of the House of Representatives from Arkansas, assailed and beat the editor of the New York Tribune in the grounds of the Capitol, immediately after leaving the House of Representatives.

Third, Philip T. Herbert, of Alabama, a member of Congress from California, shot down and killed an Irish waiter at Willard's, and is now under bonds to appear before the Grand Jury and await is tital for such crime as they may adjudge him to have committed.

Fourth, Presson S. Brooks, a member of the House of Representatives from South Carolina, assails and beats unmercifully a Senator from Mas-sachusetts, when occupying his seat in the Sen-ate of the United States, and engaged in the trans-action of business legitimately appertaining to his station.

action of business legitimately appertaining to his station.

Here then, you have, in five months, four flagrant breaches of the peace on the part of members of Congress who were born and bred in Slave States, and who are necessarily demornlized by that institution, while during the same period not a solitary instance has occurred of members from the Free States forgetting what is due by public legislators, to law and order—to civilization, and to the decencies and courtesies of the society in which they live. NEWS OF THE MORNING

Market Hall, in this city, was filled to its ut most capacity, last evening, by an audience eager to hear Col. Lank of Kansas. A sketch of the proceedings will be found in this morning's paper. Col. LANE will attend and address the Republican State Convention which meets at Madi-

Our New York correspondent gives us this morning a very earnest and eloquent letter about the wrongs of Kansas and the recent outrage at Washington. The great heart of the Free North is stirred to its inmost core by these repeated aggressions of the Slave Power,

An immense public meeting was held in Chi cago, last Saturday night, to ratify the Anti-Nebraska nominations made in Illinois. Upwards of ten thousand people were present; the utmost enthusiasm was manifested, and \$15,000 i money was raised and 500 men pledged towards making Kansas Pres!

We have further details of murderous doings in Kansas. Civil war rages in that territory, and the U. S. Government and U. Can any Administration, or any party stand up under the terrible responsibility for all this outrage, suffering and blood-

Great Meeting at Market Hall!! THE WRONGS OF KANSAS! SPEECH OF COL. LANCI

A great number of our citizens assembled on Market Square last evening to greet the gallant Col. Lane, of Kansas. Owing to the exhausted state of Col. Lane, who has for weeks been speaking to public meetings in the western states, the Market Hall was occupied, and such a gathering has soldom been seen in our city, realizing the "sea of opturned faces."

ALBERT Smirn, Esq., was chosen President, and introduced Col. Lane, who spoke in substance, as follows:

He had been, since coming here, impressed with the wonderful growth of a city like this, coming up here as in a day, and since his own not very old recollections. He felt more at home here than before any meeting be had addressed for many here were as it were frontiersmen, who had gone through much the same trials and hardships which were being gone through by those people of Kansas, who sent him here, a sup-

He asked the question, whether, when the Kansas-Nebraska bill passed, it was not understood by all that the question of Slavery was in tended to be left to the people. Further, he asked whether it was not understood and believed, and stated in Congress that Kansas, by climate, was devoted by nature to Freedom. He was surprised to find that a great many people suppose that Kansas is settled mostly from Now England, and thence abolitionists. The fact was that Kansas was mostly settled by western men. But he had never been able to see why a New England man had not as good a right as any one to settle in Kansas, and he knew that the people from the ward. neighborhood of Bunker Hill were men of as part of the Union.

The people of Kansas are a conservative people; and he who charged them with being abolitionists in the sense of wishing to disturb Slavery in the States, is a slanderer and a liar. He himself had been denounced as an abolition lecturer. when he was trying to organize the democratic party on the platform of '62. And he would say, that the day was near, when abolitionist would eignify all that was patriotic and good.

were preparing peaceably to vote, when they found among them bands of Missourians, walking arsenals. He hoped there were here no apologists for the Missourians. If there is such a white livered hypocrite here let him go to Platte County. The men there are proud of their deed. They said the Missouri river should run in blood, but Kansas should be a slave State. The very boys of Wisconsin ought to lash such northern apologists naked out of the State. Well, these Missourians voted. They took pos-

session of every poll but one. What would you do, if the people of Illinois, who are your friends, as the others are our enemies, came over hero that way? what would you do if they came and took your polls? [Voices, "We'd fight!"] Of course vou'd fight! There is not a man, woman or child who wouldn't fight. Col. Lane here held up the book, the Statutes

of Kanens, made by the Missourians in two or three weeks, by taking the whole Missouri code, "with a generous confidence," as an Itishman once did a frog.

He had been a democrat from his childhood, he claimed now to belong to the same party, if there is one. But there is a pro-slavery portion of that party, chained, neck and heals, to the car of slavery, to which he did not belong. They are traitors to the democratic party. That wing of the party is growing small daily. The Idea of ing adjourned. November will show that the people are against them. That wing is made up of-well, mostly postmasters. They talk of some other people as "nigger worshippers," while themselves are the most abject of slaves to Slavery, and the Juggernaut car will crush their bones till they make a very small mark.

Well, now. Frank Pierce-don't talk because I say Frank-he was the work of my hands, as I was a State Elector from Indiana, and cast the vote for him. Didn't we make a pretty mess of it? Pierce says we must obey these laws, and tering 15. Dixon lacked 5 votes of an election. these pro-slavery editors say that I must be hung | Further balloting postponed till next week. for not obeying them.

Kansas is no valueless prize. It has the love-liest climate in the world, and it must be free.— The laws that are good enough for the people of Kansas, are good enough for Wisconsin, tenem-ber that? (Col. Lane here read some extracts from the bloody code of the bogus Legislature of Kansas.) It punishes the stealing of a white child with invarisoment for six nountles, but the child with imprisonment for six months, but the taking away of a negro child to freedom, with death. And these apologists call us nigger-worshippers! They dare to stand up and abuse us for not obeging such laws.

So these men come up and appeal to the Irish-

men and Germans because they say, their oppo-nents are Know-Nothings. Let it not be said after to-night! These very men took away from the alien born in Kansas the right to vote on their first papers. And now they say that those who reputhate the Missouri code are Know-Noth-ines!

[Many voices, "Never! never!"]

Is there a man here who would obey such lews? [Many voices, "Nover! nover!"]
Why, on a jury trial, no man can serve if he has any doubts of the existance of slavery in Kansaz, and if he expresses the doubts in answer to questions in Court, he is indicted by the Grand Jury, and condemned to the chain gang! Why, we have not the right of suffrage and! First, a dollar must be paid to the Sherin; and then the person offering to vote must swear to uphold the fegitive slave law! But after swearing this, if you can get past the array of bowie knives, you can vote for delegate. For nothing else! for these Missomians have appointed all the officers! This is their natural climate and they look far superior to

any of those that we see cooped up in caravan waggons in our country. But my attention was soon attracted by the appearance of an exhibition that I had often heard of but never before witnessed. It was one of the holy mon as they are called-a large muscular finely proportioned man, of about thirty years of age, with a head of long black husky hair of the size of a half bushel measure. He was in an entire state of nudity, with the sun blazing down with tropical heat upon his head, and the sand almost fiery with heat burning his

feet. When I first saw him he was standing on the opposite side of the square talking with lady, and as it was Friday, the sabbath of the Mussulman, I presume upon religious subjects; but he soon left and came over to near the place where we were standing. While here he commenced picking up some cabbage stalks that were on the ground and commenced eating them. Wo offered him some money, which he refused to accept, but he took some coarse bread which some

women gave him. These men are all over the country, being generally in caves in the mountains, and lonely places in the descrt. The people think they are endowed with supernatural powers, and pay great attention to them while living, and when dead build tombs for them the same as for their sheiks. They neither work, wear clothes, taste of meat, or ever get married. They subject upon what is given them from day to day, and take no heed of the morrow. Although our crew are as little inclined to superstition as most people of the country, jet the reis stopped the boat subsein the mountain nearly a mile from the river, to carry some provisions to one of these holy men. It is believed by them that unless they do so. ome accident will befull them before they return. But we are almost to Asouan, the ancient

By this he proved that the city laid under the tropic.

Asouan is celebrated for being the place to where Juvenal was banished. The News calls this "swagger" and " cowardly ravado," and is "disgusted" with Senator Wane for thus challenging "the whole Senate to a pu-gilistic encounter;" but it passes gently over the assault of Brooks, and has not a word of rebuke for those "venerable" and "uniformly courteous" Senators, Toomis and Burlen, who endorsed and defended the outrage committed by that ruf flan. Our opinion is, that Senator Wane's reply flan. Why the U. S. Troops were not limployed. Our late Democratic Vice President, D. R. Ar curson, who has been all along the confidentia advisor, and occasionally the active leader of "Border Ruffians," thus writes, under date o

April 25th, to the Orangeburg (S. C.) Southrone Three Companies of the U. S. troops have been called for by the Governor and marched to the scene of action. We have not yet heard the result, but I fear nothing will be done by the U. S. troops; the "Border Rullians" alone can settle the matter satisfactorily. "Border Justice" i what the Abolicionists must have.

This letter furnishes a key to the burning, sack ng and thieving at the last foray upon Lawrence The U.S. troops were not employed-as they should have been, if any troops were necessaryto back up Marshal Donelson in serving process But instead of the regulars, SHANNON, ATCHISO: & Co. called into service several hundreds of the desperate and reckless cut-hroats who infest the Kansas border. With these fit instruments. Sheriff Jones proceeded on his mission and un nunishment of this free and strong speech. So der the eye and advice of the Democratic Gover nor and the Democratic Vice President, admir istered "Border Justice" to the " Abolitionists,"

Great Meeting in Chicago. The largest public meeting ever held in Chica go, was held on Saturday evening, to ratify the Republican State nominations, and to hear Col. LANE, of Kansas. The greatest enthusiasm preruiled throughout. The following brief and pointed resolutions were passed, and commit tees appointed to carry them into effect:

Resolved, That the people of Illinois will aid he freemen of Kansas the freemen of Kansas.

Resolved, That they will send a colony of 500 actual settiers to that Territory, and provision them for a year.

Kesolved, That these settlers will invade no

man's rights, but will maintain their own.
Resolved, That we recommend the adoption o
s einlike policy to the people of all the States o
the Union ready and willing to act, and also thorough concert and co-operation among them through committees of correspondence on this Col. Lane made a telling speech, and the people, roused by his eloquence and that of other speakers, raised \$15,000 on the spot for the free-

night, and broke up with singing the "Star Spangled Banner" in one grand chorus. The Assualt upon Senator Summer on dorsed at Columbus.

COLUMBUS, S. C., Tuesday, May 27. A large number of citizens convened here this A large number of citizens convened here this evening in pursuance of a call for a meeting to sustain Mr. Brooks, in view of his recent defense of the rights of the South. Several addresses were made, and strong resolutions in approval of the course of Mr. Brooks were adopted.

Very well, Messrs. of the "Chivalry." If i be your mind that "Club Law" should be the rule in Washington and "Mob Law" should be the resort in Kansas, for "the defence of the ights of the South," i. o., for extending Slavery and "crushing out" Free Speech, let it be so henceforth understood. Now give us the Yeas and Nays in the House of Representatives on the question of expelling the cowardly ruffian, Brooks that we may know who agree with the nation of South Carolina, and their sympathizers, North and South, in justifying the brutal assault upor Sepator Schner.

the accident. The channel is very narrow at this point, and the running is necessarily close to the old wreeks.

The original can e of all this loss of life and property is an old, forbed oak log, with a large round knot at the fork. On this knot, the Sain Dale once hung, and ground a hole in her hot tom, getting out of the scrape only by throwing over soly logs of cotton. Subsequently, the Sunny South, Aberdeen, Findre and Cuby have been destroyed in consequence of its being there. It is estimated that this old log has cost the country a number of precious lives, and about \$150,000 in property destroyed and damaged."
